

What is the White Ribbon Campaign...

The White Ribbon Campaign is a month-long awareness campaign led by men and encourages all members of the community to join them in their efforts to raise awareness and funds to end domestic & sexual violence. This male leadership helps to acknowledge the important contributions men have made in ending violence against women and invites others to take a role.

The 2018 White Ribbon Campaign involved over **20,000 people** in the Greater Syracuse community! Stand with us to end domestic and sexual violence and participate in the 25th Annual White Ribbon Campaign!
