What is rape?

What is sexual assault?

- Rape is forced sexual intercourse.
- Sexual assault is any other type of forced sexual contact.
- Most victims are assaulted by someone they know.

What happens when I call the hotline?

You will reach a trained counselor who will listen and offer support as you decide what to do next.

The counselor will offer to have someone meet you at the hospital or police station to help you get medical attention and/or report the assault.
